JUSTICE!

How long before the public will be allowed to know who is responsible for the deaths of the workingmen in the wreck of the building on West Broadway?

Delay is the strongest foe of justice. It eats out the life and purpose of every investigation; it veils over every wrong and crime with the impenetrable fog of "I forget," It gives growth to corruption; it slow-poisons truth, There has been too much delay in

this case. The lives of hard-working mechanics have been sacrificed; their homes have been destroyed; their families impoverished.

Some one is guilty. The crash was not an accident.

Justice! Without delay.

The law provides how inspectors of election shall be chosen and appointed President Roosevelt is no doubt a per son of much importance, but he is not superior to the law, nor can he make laws for himself.
